Ford European period reference: 258 kW / 351 PS

Published WLTP reference range: up to 540 km

Reference figures do not establish the exact specification or present range of this VIN.

The supplied 273 kW differs from the period Ford reference. Confirm rated output using the registration document or Certificate of Conformity.

## White-edition identity

Ford offered an Ice White Appearance Package for 2022 Premium models, with white exterior accents and Light Space Gray cabin finishes.

Limited White Edition is retained as the seller description. Exact factory package and battery specification require the VIN build record.

Interior images on page 7 are supplied design references, not verified condition photographs of this vehicle. Range and equipment references are separated from seller-supplied facts.
