69,000 km

Seller-reported mileage

Specifications & vehicle identity

European Model Y RWD reference | 2020-2024 generation

Vehicle identity

VIN: LRWYGCFS9PC739799

Mileage: 69,000 km (seller supplied)

Description supplied: 2024 Standard Range RWD

VIN: LRW / C = Shanghai; P = 2023 production year

Tesla specifies calendar build year for Shanghai VINs. A 2024 first registration is possible but unverified.

VIN F / S: LFP battery; single-motor standard drive.

European RWD model reference

Single electric motor; rear-wheel drive; single-speed drive

0-100 km/h: 6.9 seconds | Top speed: 217 km/h

WLTP range: up to 455 km with 19-inch wheels

WLTP range is a new-car laboratory reference, not a measured range or battery-health claim for this car.

Dimensions & practicality

Length / width / height: 4,751 / 1,921 / 1,624 mm

Width including mirrors: 2,129 mm

Wheelbase: 2,890 mm | Five-seat cabin

Model reference dimensions; equipment may affect values.

Visible equipment & accessories

Panoramic glass roof; black upholstery; central touchscreen

Wood-look dashboard and centre-console trim

Phone mount and centre-console rotary accessory

Rear lip spoiler; silver multi-spoke wheels

Separate wheel photo shows 255/45 R19 tyre and aero cover. Supplied photographs show two wheel appearances; included wheel sets should be confirmed.

Source notes

Tesla service manual: VIN decoding. Tesla European owner manual: dimensions. Tesla 2024 sales catalogue: European RWD performance and range. Values describe the model; exact homologation, battery capacity, output, charging specification and first registration require the vehicle documents.
